Getting Started is Easy

## Enrollment

Looking for help with enrollment? Give us a call to learn about our free services. Or, if you're ready to get started, enroll now.

## Orientation

During orientation you'll complete a skills assessment and meet the staff who will help you learn more about your options.

## Instruction

While you focus on balancing life and school, we will be there to provide the tools and resources you need to measure success.

## Graduation

Whether you start a career or continue your education, we remain a resource for you to make connections as you take your next steps.

Enrollment is open to students 19+, or 16+ if officially withdrawn from High School.

## For Students

Find out how you can earn the certifications you need.

## -Lucas Bradley

"I dropped out of high school because I got suspended my senior year for something stupid and I just never went back. I decided I want to go into the military so now I need to get my GED. I've already taken the ASFAB. I just haven't been motivated to come to any classes, but Brandi has been texting me and making me do a little work in New Readers Press and has made me come in and take practice tests. I passed all of them. Now I have passed the real tests for math, science and social studies. I'm thankful that she saw I could do this and didn't stop messaging me."
